Mill Haven Foods, LLC- STATEMENT ON COVID-19 (Coronavirus)

The health and well-being of our Mill Haven Foods family and their families, along with our customers and guests has always been on the top of our priority list. As the COVID-19 pandemic evolves, Mill Haven Foods is actively engaged in developing a contingency plan for mitigating the risk across our production and supply chain.

As we operate in an FDA-regulated environment, we have policies and procedures in place to prevent the spread of illnesses that have an effect on product quality. We continue to strictly follow our protocols as outlined in our Standard Operating Procedures (SOP's). In addition, we have bolstered our procedures by:

- Adding additional facility cleaning and sanitizing
- Educating employees regarding COVID-19, along with training on prevention steps that can be implemented both at work and home
- Revising working and meeting schedules to avoid large gatherings
- Restricting all visitor access to the facility, with the exception of those critical to our business
- Suspending all travel, with the exception of travel critical to our business.

This is a highly dynamic situation and Mill Haven Foods will continue to adapt and adjust our policies as needed. Mill Haven Foods has been built on quality and customer service. We very much value your business relationship. Mill Haven Foods will do whatever is in our power to fulfill our current obligations, while providing healthy and safe products. We note that in these times of unpredictable business demands, timeliness of future orders may be affected.
